

## RAGE 3-BLADE RECALL!

Field Logic has discovered a defect in the Rage 3-Blade broadheads. The blades do not always fully deploy on product shipped between March 6<sup>th</sup> and May 31<sup>st</sup> of 2007.

We feel the defect may create performance issues of non-deployment or partial deployment. For this reason we need to replace ALL Rage 3-blade heads and replacement blades. Below is an image that details the difference between good and bad heads. If you are unsure simply send them back to us at: *Rage Recall, 1230 Poplar Ave., Superior, Wisconsin, 54880.*

### HOW CAN I DETERMINE WHETHER MY HEADS OR BLADES ARE BAD?
